Forecast For Wales
Issued by Met Office Exeter
at 1600 on Tuesday 26 Jan 2021

++ Valid for broadcast between 1800 and 0600

Headline:
A wet outlook, with frequent rainfall and few dry interludes.

This Evening and Tonight:
Today's rain will clear to the east during the evening. It will be cloudy overnight and dry for a time, before further outbreaks of rain spread into western and southern areas from midnight, to then weaken around dawn. Minimum temperature 2 deg C (36 deg F).

Wednesday:
A cloudy and mostly dry day, with some showers along the south coast. Further rain then arrives from the southwest later, covering the whole country overnight. Maximum temperature 10 deg C (50 deg F).

Outlook for Thursday to Saturday:
Wet on Thursday morning, then mostly dry with a few showers before rain overnight. Showery again on Friday, with strong winds along the south coast. Dry, bright and cold Saturday.
